

GOV COVID-19 PROTOCOL

The following applies to all GOV programming. Additional information about the adapted format of specific programs can be found on the [Drop-in](#) and [League](#) pages of our website.

All players are encouraged to download the Government of Canada's COVID-19 exposure notification app: [COVID Alert](#).

All players must wear a cloth face mask that covers the nose and mouth at any time while not on the court. Players are strongly encouraged to wear a mask during play.

Spectators are not permitted. Only registered players assigned to their specific facility on their specific night are permitted to be present. This includes spouses, children, extended family, friends and pets.

Volunteers present (who are not also playing that night) will wear a cloth face mask at all times.

Payments and monetary transactions will occur online using our new [Player Portal](#).

No high fives, hand shaking, or fist-bumps.

Players must follow any specific sanitation requirements by the host facility. Be mindful that this could affect players' access to washrooms or changerooms, specific entrances or adjacent hallways. Specific information about each facility will be available on the [Player Portal](#).

Players should bring their own water bottle, and be prepared to not be able to access a water fountain or other source of drinking water at their facility.

Attendance will be recorded at sessions to enable contact tracing, should it be necessary.

To minimize the intensity of potential community spread in Ottawa, players are strongly encouraged to play volleyball with GOV exclusively and avoid participation in other sports leagues.

If a player tests positive for COVID-19, they are obligated to notify GOV in order to enable us to work with public health officials and make informed decisions on whether to continue, pause or cancel programming. GOV will hold and use this information in the strictest confidence and in full adherence with our [Privacy Policy](#).
